Sponsorship

2026 – 2027

Changing the world, one student at a time

UNT
COLLEGE OF ENGINEERING

Who we are

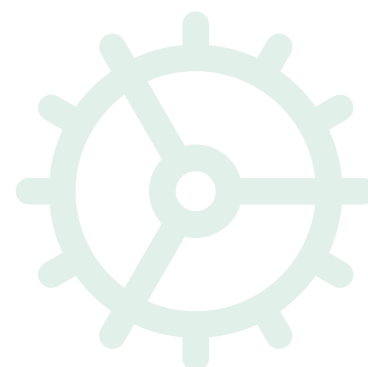

UNT Robotics is an entirely student-led engineering organization at the University of North Texas — and one of the largest on campus. With roots going back decades and revived in 2018, we give students the chance to apply what they learn in class to exceptionally challenging, real-world projects.

We are not a social club. Through weekly workshops, hands-on projects, and national competitions, our members design and build robots and rockets from the ground up — hardware that costs thousands of dollars and pushes what students thought was possible. Because we run on a non-commercial model, **we rely entirely on sponsors and donors to make it happen.**

500+ Student members	6 Divisions	1st IEEE Region 5 winners	7 Botathon seasons
---	----------------------------------	--	---

Our divisions

- Aerospace
- Recreational Robotics
- Competitions
- Fabrication & 3D Printing
- Operations
- Outreach

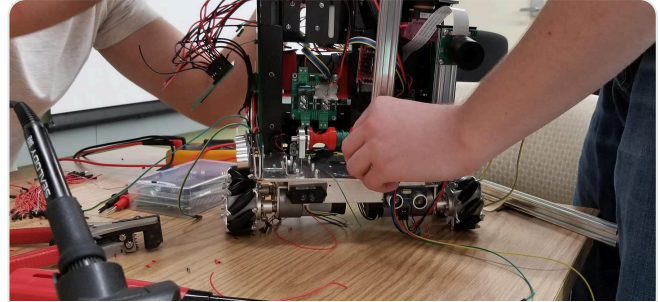

What we build

From high-power rockets flown at NASA Student Launch to a self-driving sofa, our members take on ambitious projects across every discipline — and win.

Why sponsor us?

Sponsoring UNT Robotics puts your brand in front of exceptional engineering talent — and helps build the next generation of your industry.

- **Recruiting & talent**

Gain face-to-face access to our engineering teams. The build-and-development experience tells you more about a candidate than a thousand interviews could.

- **Community impact**

Your support funds STEM outreach with schools, scouts, and local organizations — inspiring the scientists and engineers of tomorrow.

- **Brand awareness**

Bring your brand into the UNT orbit. Our high-profile projects have gone viral on social media, featured on television, and drawn crowds at in-person events.

- **Innovation**

Our competitions are a breeding ground for new technology, developed and tested from scratch by students solving real, hard problems.

Ways to support

Financially — fund the parts & equipment behind our robots and rockets.

Mentorship — industry experts & alumni guide our advanced projects.

Give a talk — come to campus and inspire young talent.

Volunteer & outreach — bring hands-on STEM to the next generation.

Sponsorship tiers

Every level makes a real difference. Prefer to give in kind (parts, equipment, services)? We value in-kind support at retail toward these tiers.

Benefit	Friend \$250+	Bronze \$1,000	Silver \$2,000	Gold \$3,000	Title \$5,000
Social-media shout-out (@untrobotics)	●	●	●	●	●
Name & logo on our website	●	●	●	●	●
Sponsor goody bag (apparel, stickers, team photo)	●	●	●	●	●
Logo on event banners	●	●	●	●	●
Logo on team shirts & transport vehicles	●	●	●	●	●
Logo on competition robots & rockets	●	●	●	●	●
Logo / name in our project & flight videos	●	●	●	●	●
Campus talk & resume-database access	●	●	●	●	●
Premier placement & project naming	●	●	●	●	●
Vehicle / experiment naming rights + first refusal	●	●	●	●	●

All donations are tax-deductible — made through the UNT College of Engineering. Tiers are a guide; we're happy to build a custom package around what matters to your company. Amounts shown are annual; the Title tier includes first refusal for the following year.

UNT Robotics

DESIGN. BUILD. TEST. FLY.

***With your support,
the sky is not the limit.***
